

September 14, 2026

To Whom It May Concern:

Google is pleased to inform you that Nitish Kumar has successfully completed Google Summer of Code 2026, a program where accepted participants learn about open source software development by writing code for an open source project under the guidance of mentors.

Nitish was accepted into the program by, and developed open source software for, Oppia Foundation, beginning May 25, 2026 and ending on September 7, 2026. Over that period, they passed their two evaluations conducted by their mentor receiving a stipend of 3000 USD for the project.

Nitish worked remotely on their project and was not required to visit either Google or the offices of Oppia Foundation. Nitish Kumar was not directly employed by Google during Google Summer of Code 2026. The Google Summer of Code 2026 program was administered by Google from our corporate headquarters.

More information on Nitish's project can be found at:

<https://summerofcode.withgoogle.com/programs/2026/projects/DLicszJv>.

You can learn more about the program on our website at g.co/gsoc. Should you require any further information, please do not hesitate to contact our team via email at gsoc-support@google.com.

Best,
